## Baikal international business school

### 38.04.02 MANAGEMENT. FINANCIAL ADVISORY AND RISK MANAGEMENT

Language of instruction: English

Baikal International Business School (Institute) of Irkutsk State University specializes in the development and implementation of innovative projects in the field of business and management. The fundamental principle of the business school is international competitiveness: in the requirements for professors, students and graduates; in the content of education and training technologies; in cooperation with Russian and foreign partners; in the corporate culture of the business school that is receptive to innovation and constant change.

#### Strategic areas of activity:

- active integration into the international educational environment;
- strengthening connections with real business;
- using information technology in management and educational processes;
- training a new generation of young Russian professors;
- creation of educational consortia with leading domestic and foreign universities and business schools;
- consulting.

#### The objectives of the Master's degree program:

- Acquisition of in-depth knowledge in business, management, economics and mastering management skills.
- Developing an understanding of the management process in the context of the modern global business environment.
- Development of research and analytical skills necessary for decision-making.
- Additional advantages in employment and career growth, both in Russian and foreign companies.

The Master's degree program is the training of highly qualified managers, analysts and researchers to work in organizations of large and small businesses in various sectors of the economy: industrial enterprises, services, government agencies, banks, insurance and consulting companies.

#### International and Russian recognition of BIBS ISU:

- From 2008 to the present, by the decision of the international expert community Eduniversal, Baikal International Business School of ISU, is included among 19 Russian business school in the international rating of "1000 best business schools in the world". The International Scientific Committee of Eduniversal has included BIBS ISU in the league of "Two Laurels", which testifies to the high regional importance of the university and its extensive international contacts.
- BIBS is a member of the Russian Association of Business Education (RABE), has public accreditation in the Chamber of Commerce and Industry of the Russian Federation.
- According to the results of the international student competition organized by the Association for Management Development of Central and Eastern Europe CEEMAN, it was awarded the diploma "The best innovative Business School", among 5 business schools and universities out of 1000 whose students participated in the competition.

I graduated from ISU Management Master program last year. As I had a bachelor degree in Linguistics, it was an interesting challenge for me to learn new terminology, to do mathematical calculations and to dive into the modern economy. During our studies we had inspiring group discussions on various European and Asian economic and business models, we often compared the Russian and the Chinese economy. The most classes involved active students participation which suited my personality very much! (*Xing Yanan, China*)
