

**IRKUTSK
STATE
UNIVERSITY**

Est. 1918

Irkutsk State University, the oldest university in Eastern Siberia, was founded in 1918. Irkutsk State University is a classical university combining its rich heritage and modern technologies. ISU is consistently ranked in Russian and international academic rankings, thus proving its popularity in the sphere of education and science. ISU conducts educational, scientific and research activities in a variety of profound and promising perspectives which are in high demand in Russia and abroad.

Nowadays Irkutsk State University is a large scientific and educational institution training students in humanities, natural, technical and applied sciences. Its educational complex includes 8 academic institutes, 8 faculties, the Scientific library - one of the largest university libraries in Russia, the Astronomical observatory, and the Botanical garden.

ISU offers bachelor, master, post-graduate programs for more than 15 000 students that have opportunity to specialize under the supervision of world-known scientists.

For all our international students there are dormitory rooms available.

**IRKUTSK
STATE
UNIVERSITY**

Irkutsk State University

has profound experience in teaching foreign students. The number of foreign students is growing annually. In 2021-2022 academic year ISU admitted 850 students from 39 foreign countries to study in major and supplementary education programs.

Foreign students arriving without sufficient knowledge of Russian language enter the pre-university department.

ISU offers a variety of courses "Russian as a foreign language" including programs for beginners and learners with an intermediate level of Russian.
